

BUILDING on PERFECTION

Brock Dock® systems offer you more time with friends and family — without the hassles that accompany other dock products. Building with a Brock Dock system means **BUILDING on PERFECTION.**

Endurance

Brock Dock systems are built to last. Weather-resistant, 100% vinyl with UV protection ensures that your dock's beauty will endure the elements for years to come. So while some other docks become faded, discolored or even rotted over time, Brock Dock systems can maintain their beauty year after year.

Convenience

No need to paint, stain or seal — you'll enjoy the ease of carefree maintenance because Brock Dock systems are made of premium vinyl. Don't spend valuable time maintaining your dock. Instead, you and your guests can devote your time to enjoying your outdoor space together.

Practical Styling

Brock Dock systems offer great-looking designs to enhance your outdoor space, combined with practical features that make your life easier.

Two slip-resistant patterns ensure added safety when your dock is wet. Brock Dock also has very low heat retention and stays cool to the touch. And with a variety of colors to choose from, you're sure to find a Brock Dock system to achieve a look you'll love.

Quality That Lasts

Brock Dock systems undergo rigorous testing to ensure structural integrity and quality you can count on.

Products are assessed for weathering and structural performance as well as building code compliance and lasting aesthetic appeal.

Scratch-Resistant

Stays Cool

Slip-Resistant and Non-Splintering

Stain-Resistant

Easy Install & Maintenance. Complementary Finishing Touches.

Brock Dock® systems Clip Strip fastening system keeps screws hidden and ensures that planks are spaced uniformly — while managing and controlling the natural expansion and contraction that occurs under temperature extremes. The Clip Strip system also makes single board replacement easy without removing the surrounding boards.

Customize the look of your new dock by adding bumpers and pier coverings. These options are designed to perfectly complement your Brock Dock application.

Each piece is made with the same high-quality material as our docks, so they are resistant to the effects of weather conditions and remain durable through continuous heavy use.

Unique Clip Strip Connection System

LIMITED LIFETIME WARRANTY

Westech stands behind its products with a Limited Lifetime Transferable Product Warranty. Brock Dock systems are warranted against manufacturing defects for the life of its installation.
