

BROCK DOCK® LIMITED LIFETIME WARRANTY

ORIGINAL OWNER'S LIMITED LIFETIME NON-PRORATED PRODUCT WARRANTY

Westech's Brock Dock products are manufactured using quality raw materials and are produced with engineering excellence designed for years of maintenance-free performance. Westech warrants that these products will be free from material defects in manufacturing workmanship for the lifetime of the original owner of the property on which the products were originally installed. Westech further warrants that its products conform to the impact resistance and weathering standards established in ASTM Specification F964 and color-hold guidelines in ASTM Specification D 4726, Appendix XI. When properly installed and used under normal conditions, these products will not peel, rot, blister, rust, flake, chip, crack, corrode, pit, abnormally discolor or be consumed by termites, solely because of defects in material, manufacturing, or exposure to salt spray from ocean air. If any product is determined by Westech to be defective, Westech will, at its sole option, repair or replace the product or refund the purchase price in accordance with the claims and remedies provisions set forth below. In the event of repair or replacement of a defective product, the Warranty shall apply to the repaired or replaced product for the balance of the Warranty period.

This Warranty is made exclusively to the original purchaser of Westech's Brock Dock products for the full lifetime period (i.e. until death) of the purchaser/property owner provided said purchaser/property owner remains as owner and primary occupant of the property on which the products were originally installed on an uninterrupted basis. If for any reason the original purchaser/property owner no longer is full-time resident on which the products were originally installed, then the Warranty period shall convert to 50 years (non-prorated) from the starting date of the original installation of the products. The lifetime feature of the Warranty is intended to apply to individual property owners only. Products purchased for commercial use or purchased by, or installed upon property owned by, corporations, government agencies, partnerships, trusts, religious organizations, schools, condominiums or cooperative housing associations, or installed on apartment buildings or any other type of property or premises not used

by individual property owners are warranted for fifty (50) years from the starting date of the original installation of the products.

CONDITIONS NOT COVERED BY THIS WARRANTY

This Warranty covers only the specified damages arising solely from defects in the manufacturing of Westech's Brock Dock products, not to include clips, strips, and fasteners used in the installation of these profiles. It does not provide protection against any failure, defect or damage caused by situations and events beyond normal exposure conditions, including, but not limited to: faulty or improper installation; movement, distortion, collapse or settling of the ground or structure or failure of the structure (including foundations, piers and walls) on which the products are installed; negligence, accidental or intentional acts of damage, misuse, abuse, improper or failure to provide reasonable and necessary care of the product; normal and uniform weathering of the surface, normal chalking, discoloration or fading due to exposure to sunlight or rubber-backed mats, extremes of weather, mold, mildew, harmful chemicals, vapors or acid rain, or atmospheric pollution; impact of foreign objects, fire, wind, flood, lightning, earthquake, hail or other acts of God; distortion or melting of the profiles due to external heat sources, including but not limited to, barbeque grills, fires or as a result of reflection from windows, doors or other objects; ordinary wear and tear; or, the installation of accessory components or competitive products which are incompatible with Westech products. PVC materials used for dock applications have the ability to hold a static electric charge which may be discharged if the charge is grounded. If this static electric charge is released during a refueling event there is a risk of a combustible event occurring. Westech Building Products, Inc. does not warrant nor recommend Brock Dock, or any other PVC material, on or around docks that will have permanent or regular fuel storage or fueling events. This Warranty covers only unpainted products and is void if any paint, stain, varnish, sealer or other finish has been applied to the products. All products will experience some discoloration when exposed to the elements for a sustained period. Normal weathering occurs as exposure to ultraviolet light and extremes of weather and atmosphere causes any surface to experience gradual and uniform appearance changes such as chalking, fading, or accumulating dirt

(Continued from front)

or stains. Degrees of weathering vary depending on geographical location, air pollution, exposure and other factors. Westech warrants that its products will “weather” in a uniform manner consistent with the weathering standards established in ASTM Specification F964. Any weathering change that occurs on a specific exposed face of the product in a manner that varies from plank to plank producing an uneven look will be considered a defect. Color or gloss disparities arising from products having been installed in different years or involving the installation of accessories or competitive products which are incompatible with Westech products will not be considered a defect.

REGISTRATION OF WARRANTY AND TRANSFERABILITY

This warranty shall be valid only if, and after, registration is completed online at Westechbp.com by the original purchaser within 30 days after completion of installation of the products.

The registered Warranty is transferable by the original property owner to any subsequent owner(s) of the property where Westech’s Brock Dock products were originally installed, provided each subsequent owner retains the original or a copy of the original bill of sale and Warranty card. Upon transfer by the original property owner to any subsequent owner(s), the Warranty converts to a 50-year, non-prorated Limited Warranty commencing with the starting date of the original installation of the products.
